

LUXEMBOURG INSTITUTE OF HEALTH
DESIGN GUIDELINES

Introduction

Luxembourg Institute of Health (LIH) is the leading public research center in Luxembourg for basic, pre-clinical and clinical research in biomedicine and public health. Our clinically-oriented biomedical research activities in Oncology, Infection & Immunity and Population Health encompass the generation of knowledge on the pathogenesis, diagnosis and treatment of diseases with large impacts on public health and the epidemiological surveillance of these diseases. With the mission to deliver scientific, economic and societal value for Luxembourg, LIH aims to translate knowledge into clinical applications impacting on healthcare systems while shaping personalized medicine.

Graphic Elements

Stardust

This element can be used on all corporate and stationery applications. For example business cards, reports, e.t.c. Colors and blur effect may vary. Can also be used as a white overlay on illustrative pictures.

Cut-Out

This element can be used on high-end corporate communication like annual reports or presentation brochures. It should be applied on a minimalist, preferably white, cover with a coloured second page inside.

Paper

Covers / Brochures

Depending on the supplier the paper used in printing is Balance Pure or Cocoon Offset/Digital. For covers / brochures / flyers it should be 250gr/m² upwards with a mat finish/coating.

Inside pages

Depending on the supplier the paper used in printing is Balance Pure or Cocoon Offset/Digital. Strength should be from 90 to 120gr/m² with or without coating.

Pictogrames

LIH Pictograms

All pictograms are based on linework and only contain fills if needed. Two tone pictograms are allowed. Second tone has to be 50% of the primary Tone.

Picture Language

LIH Pictures

Pictures should mostly consist of close-ups / details, and should feature some “depth-of-field” /blurred elements to illustrate the “closer look” scientists have to take on their subjects.

People / hands in action should dominate the picture language. Color gradient can be applied.
