

INVITATION / COURSE

THE GERMAN INNOVATION FUND HOW HEALTH CARE INNOVATIONS ARE PROMOTED IN GERMANY

Abstract

This lecture will provide insights into how innovations are promoted by the newly created Innovation Fund (Innovationsfonds) and the political context in which the fund, worth € 300 million per year, is operating.

The lecture will start with an introduction to the German statutory health insurance system and the German National Association of Statutory Health Insurance Funds (GKV-Spitzenverband). The association has a central role in the German healthcare provision and is a key player in the Innovation Fund.

The second part of the lecture will provide insight into the working mechanisms of the fund and how innovation in health care provision and health services research with high potential of directly improving health care is promoted by it.

SPEAKER

Dr. David REINHARDT

Dr. David Reinhardt is working in Berlin at the Politics Department of the German National Association of Statutory Health Insurance Fund. His main task is the administration of the Innovation Fund. He received his doctor's degree (Dr. rer. biol. hum.) from LMU Munich, studied Health Policy, Economics and Management (M. Sc.) and European Public Health (B. Sc.) at Maastricht University.
