
LIH/BD Joint Flow Cytometry User Meeting

May 10, 2016 – House of BioHealth, Esch-Sur-Alzette

9.00 – 9.30	Registration and coffee
9.30 – 9.40	Welcome
9.40 – 10.00	Presentation researcher <i>TBD, Luxembourg Institute of Health</i>
10.00 – 10.20	Presentation researcher <i>TBD, Luxembourg Institute of Health</i>
10.20 – 11.05	REVEAL The implication of relative fluorochrome brightness and intracellular staining methods for resolving your populations of interest <i>Jean-Pierre Sepers, BD Biosciences</i>
11.05 – 11.20	Break
11.20 – 12.20	RESOLVE New insights for instrument set up to address spectral overlap and to maximize resolution <i>Roland Langelaar, BD Biosciences</i>
12.20 – 13.15	Lunch offered by BD Biosciences
13.15 – 14.00	TBD <i>René Brons, Luxembourg Institute of Health</i>
14.00 – 14.20	Presentation researcher <i>TBD, Luxembourg Institute of Health</i>
14.20 – 14.35	Break
14.35 – 15.35	ACHIEVE Putting it all together: Panel design principles for surface and intracellular staining <i>Jean-Pierre Sepers, BD Biosciences</i>
15.35	Closing remarks
