PART A: Research results at the center of the therapeutic revolution

19 May
**The Dependence Receptor concept: from cell biology to clinical trial**
Prof. Agnes Bernet
Professor at University Claude Bernard Lyon 1, Co-founder and chief scientific officer at Netris pharma Lyon, France

21 June
**New innovation models for biopharmaceutical innovation: preparing the next generation of healthcare professionals**
Prof. Michel Goldman
Founder and co-director of the Institute for interdisciplinary Innovation in Healthcare in Brussels (Brussels, Belgium)

30 June
**The drug development process and the role of academic research in it**
Dr. Bernard Vanhove
Founder and chief operating officer at OSE Immunotherapeutics (Paris, France)

12 July
**Early stage drug valuation: from target identification to proof of concept**
Dr. Revital Rattenbach
Chief Executive Officer of 4P Pharma (Lille, France)

22 Sept.
**Healthcare decision makers: how to match drug development and regulatory approval?**
TBC

27 Oct.
**Personalized medicine as a future: the Biomarkers example**
Dr. Inês Amado
Project Manager, Biomarkers and companion tests, Aviesan (Paris, France)

PART B: Define, mature and realize your applied research projects: valorization tools

2018

TBC Nov.
**Why and how to move research results towards translational research and clinical applications**

TBC Dec.
**Public/private partnerships: bringing science closer to society**

TBC Jan.
**Technology/molecule development through spin-off creation: a valuable step for research results valorization**

TBC Feb.
**Translational Research platforms: a bridge between academic results and clinical applications**

TBC Mar.
**Researchers, clinicians, companies, patients associations: connecting medical science people to achieve effective clinical trials**

TBC April
**Luxembourgish and European funding schemes supporting collaborative projects and entrepreneurship**

Coordinated by Research Knowledge Transfer Office (KITS/ACTOR project)
