

Chair in Neuropathology

Luxembourg is recruiting a **Chair in Neuropathology**. With this recruitment Luxembourg strengthens its national strategy by providing specialized pathology services as well as complementing ongoing strategic research efforts in Personalised Medicine, the National Centre of Excellence in Parkinson's disease (www.NCER-PD.lu) and the National Cancer Plan (plancancer.lu).

The candidate will be hosted at the **Laboratoire National de Santé** (LNS, www.lns.lu), the centralized diagnostic center of Luxembourg. He/she will be affiliated with the **Luxembourg Institute of Health** (LIH; www.lih.lu) and the **University of Luxembourg** (www.uni.lu). The position is endowed with FNR PEARL funding (www.fnr.lu/pearl) and an invited professorship at the University of Luxembourg.

With the substantial funding provided, he/she will be able to develop his/her own research programs in Luxembourg and establish a novel **Center for Translational Neuropathology**. He/she will contribute to ongoing research efforts in the fields of neuro-oncology and neurodegenerative diseases (**NCER-PD**). The Neuropathologist-researcher will be responsible for the processing of all neurological biopsies, surgical specimens and autopsies collected in Luxembourg for both diagnostic and research purposes. He/she supervises neurological biospecimen collection in close cooperation with the LNS and the **Integrated Biobank of Luxembourg** (IBBL, www.ibbl.lu).

Requirements:

- Strong research track record in neurosciences with experience in digital imaging, electron microscopy and good understanding of molecular pathology
- MD degree specialized with Board Certification in Pathology (sub-specialty Neuro-Pathology) and/or in Neuro-Pathology
- Language skills: Fluent in English and French (oral and written), additional fluency in German would be an asset.

Applications should be sent in by May 13th 2016 and should include:

- Motivation letter
- Detailed CV
- Description of past research achievements and future research directions, also addressing how this research line will contribute to ongoing initiatives in Luxembourg (5-10 pages)

Addressed to:

Laboratoire national de santé
Service des ressources humaines
1, rue Louis Rech
